

## Report from the President

Our normal club activities have been severely restricted as a result of the COVID-19 pandemic. We were unable to fulfill our meeting mandate because of closures at the Mary Winspear Center, and strict health protocols that needed to be followed. We were able to have meetings in February and March, but not after that time. One propagation group meeting was held, and we had two “drive-by” plant sales, one in April and the other in September. The executive began meeting again in June, outside following social distancing requirements, and have met monthly (and will continue to do so) to continue planning for the affairs of the Club. There will be no formal annual report until we are able to hold our AGM sometime in the New Year. Submitted by Jane Stollery, President
